JESS WILLARD ACQUITTED BY JURY

Of Charges of Violation of Law Prohibiting Prize Fighting— Attorney Ford Says There Will Be No More Prosecutions Under Present Law—Manslaughter Charge Withdrawn.

Los Angeles, Cal., Jan. 13.—Jess Willard, the heavyweight pugilist, on trial charged with prize fighting, was acquitted by a jury today after an all night deliberation. The charge was the result of the death of John Young after a bout at the Vernon arena with Willard, Aug. 22.

By its verdict the jury sanctions boxing contests such as have been conducted in California since the prize fighting statute was amended in 1909. Joseph Ford, deputy district attorney who prosecuted Willard, asked a verdict which would prevent all ring contests where the intention to deliver a knockout blow was obvious. After the verdict Ford said there would be no prosecutions in future unless the law were further amended.

Originally there were eleven others accused with Willard. The first charge filed immediately after the death of Young, was manslaughter. This was changed to violation of the prizefight law and the charges against the eleven co-defendants were dismissed.

Judge Craig disregarded the judicial custom and commented on the case. He gave it his opinion that the state law prohibiting prize fighting was not settled by the verdict.

"Personally, I advocate and when opportunity affords take part in almost all forms of square, manly athletics," he said. "I believe sparring in such a sport."

"From the standpoint of the lawyer or anyone interested in finding out what construction the supreme court of this state would place on the law forbidding prize fighting, and allowing sparring matches under conditions, the verdict of the jury in the Willard case is disappointing."

First Division Survivors.
Pinehurst, N. C., Jan. 13.—First division survivors of today's first round of match play in the annual tournament.

Robinson Signs With St. Louis.
St. Louis, Jan. 13.—Manager Huggins of the St. Louis Nationals announced today that he had signed a contract with Lefty Robinson, a pitcher who was traded to St. Louis by Pittsburgh in the recent deal by which Koenigshy, Mowrey and Harmon were transferred to the Pittsburgh Nationals.

FINANCIAL AND COMMERCIAL

N. Y. CENTRAL AT 88 3-8.
Railroad Stock Depressed to Its Lowest Mark Since 1896.

New York, Jan. 13.—After overcoming an early tendency toward a lower level, stocks held firm today. The market at times felt the effect of free selling in stocks, but offerings were well taken. In spite of apparent underlying strength no attempt was made to bring about a continuation of yesterday's upward movement. Professional operators were inclined to refrain from further commitments on the long side at this time, preferring to await news from Washington as to the attitude of the administration toward anti-trust legislation. It was thought that the president's forthcoming message on this subject might have an important influence on sentiment in the financial district.

While the standard shares moved narrowly, some of the stocks which ordinarily are classed in the inactive list were strong. Securities of the independent steel companies again made a good showing, and there were further advances in the fertilizer, petroleum and local traction issues. Texas company, however, had a sharp relapse from its high level on denial of the report that standard oil interests were seeking control of the company. A feature of the trading was the further brought down the price of that stock temporarily to 88 3-8, its low point since 1896.

Engagement of \$2,000,000 gold for export to Paris, while not expected at this time, had little influence on stocks. Cash has been accumulating here rapidly of late, and the influx is expected to continue for some time. In the absence of any unusual development the local money market is not likely to be affected by shipment abroad of a moderate amount of gold. The call money market was not influenced, last news being made at 2-1-2. The last previous engagement of gold from Paris was on July 15, closing a movement of \$2,000,000 to France and a total export movement of \$66,000,000 to Europe and South America.

The bond market was strong. Buying of Hook Island issues was the principal feature. Total sales, par value, \$3,056,000. Panama three advanced 1-4 on call.

Engagement of \$2,000,000 gold for export to Paris, while not expected at this time, had little influence on stocks. Cash has been accumulating here rapidly of late, and the influx is expected to continue for some time. In the absence of any unusual development the gold money market is not likely to be affected. The call of a moderate amount of gold. The gold money market was not influenced, however, being made at 2 1-2. The last previous engagement of gold to Paris was on July 15, closing a movement of \$42,000,000 to France and a total export movement of \$66,000,000 to the United States.

The bond market was quiet. The
